THE AGE OF STUPID
Why Didn't We Save Ourselves
When We Had the Chance?

Eden Mills Going Carbon Neutral is partnering with Transition Guelph, Dublin Social Justice and Outreach Committee and Kairos to bring this new film by the makers of *McLibel* and the Oscar-winning *One Day in September* to us. This intriguing and potent film takes us into the future when the world's inhabitants look back at this moment in time when our actions could have made a big difference.

who have been involved, or wish to be involved, in increasing their school's environmental awareness and initiatives.

The one-day conference will consist of four main sections:

- 1) Voices of Environmental Clubs:** Three environmental clubs will share one of their successful initiatives from their school or community promoting positive environmental change.
- 2) Activating Your Environmental Voice:** Three secondary students from different schools, who have demonstrated environmental initiative and leadership, will share both what they have done and how they did it.
- 3) Environmental Conversational Café:** Over lunch, in small groups, students will informally discuss specific environmental questions.
- 4) Voice of Elders:** Students will stay in the same Conversational Café groups to participate in a workshop lead by a teacher or community environmental leader.

For further information on the Eden Mills Youth Group or the Eco-Conference please contact Kit Bresnahan 856-1188.
